FRONT END WEB DEVELOPER

Creative Front-End Web Developer skilled in JavaScript, HTML, CSS, React, Node.js, and MongoDB with Mongoose integration. Graduate of a comprehensive web development bootcamp with a focus on crafting responsive, user-friendly interfaces. Strong communicator and collaborative team member with a passion for clean, efficient code. Eager to apply technical expertise and problem-solving skills to deliver engaging front-end experiences and drive innovation.

SKILLS

TECHNICAL SKILLS - JavaScript, HTML, CSS, React, Node.js, Express, MongoDB and Mongoose, Desktop, Hardware and Software Support.

SOFT SKILLS - Collaboration, Problem-Solving, Communication, Eagerness to learn, and in love with the process and results of creating dynamic and fully functional web pages.

TECHNICAL EXPERIENCE

MAROME INVESTMENTS, Junior Front-End Software Developer (02/2025) - Present

Since February 2025, I've been working as a Junior Front-End Software Developer at Marome Investments, a freelance backend solutions company, where I build and maintain responsive user interfaces, optimize client-side performance, and collaborate with backend developers to ensure smooth API integration. I've contributed to live projects, enhanced UI consistency, and developed reusable components, all while continuing to grow as a developer. I'm passionate about creating clean, user-friendly, and high-performing websites and applications that help businesses stand out online, and I enjoy transforming client visions into digital experiences that are both visually appealing and truly valuable to users.

HYPERIONDEV, Full Stack Web Development Bootcamp (11/2024) - (02/2025)

Worked with the 'Full Stack' of web technologies and languages to build both the front and back-ends of websites to create online stores, homepages, and other platforms that look great and work even better.

- Achieved an overall grade average of 99% for the bootcamp tasks.
- Mastered frontend development using HTML, CSS, JavaScript and React languages to enhance user experience and developed a deep understanding of server-side development, database management and user authentication.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

- This is a personal portfolio website showcasing my skills and projects as a web developer. ([GitHub Link](#), [View Live](#))

MAROME INVESTMENTS WEBSITE

- Developed a professional, fully responsive company website for Marome Investments, a freelance backend solutions firm.
- Built an interactive inquiry system where clients can submit service requests, automatically stored in a MongoDB database through an Express.js API.
- Created an admin dashboard allowing employees to securely view and manage incoming client inquiries.
- Implemented clean and consistent UI design using HTML, CSS, and JavaScript, with Axios handling front-end-back-end communication.
- Collaborated on live project improvements, including UI consistency, reusable components, and performance optimization.
- Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose.
- I have added the link for the live website and the code in my GitHub repository. The code for the server and backend is private for security purposes. ([GitHub Link](#), [Live Website](#))

API MEAL SEARCH APPLICATION (HTML and JAVASCRIPT)

- Developed a responsive meal search application using HTML and JavaScript.
- The application starts off with the user entering a random ingredient. The app will then give the user a random meal from the API which has the ingredient. The user can then decide to accept the order or skip it.
- The application utilises the **prompt()** and **alert()** functions for user interactions, then fetches API for consuming the Meal DB API, and **sessionStorage** to store order details. ([GitHub link](#), [Project Link](#))

ONLINE STORE WEBPAGE (REACT)

- Developed a dynamic online store frontend using React, enabling seamless product browsing and efficient cart management. Implemented user-friendly features to enhance

navigation, product selection, and real-time cart updates. Focused on delivering a responsive and intuitive interface to improve overall user experience. ([GitHub link](#), [Live Project](#))

WEST LONDON GIANTS [Frontend (React)]

- A React-based Chelsea fan app featuring a dynamic home page, player pages, and club history/trophies navigation. ([GitHub link](#), [Live Project](#))

ITUNES SEARCH APPLICATION (FULL-STACK)

- Developed a full stack iTunes media search app using a search API which interfaces with React and Express. The application allows users to search for content within the iTunes Store and Apple Books Store and save a list of their favourites. ([GitHub link](#))

PREMIER LEAGUE TOP SCORERS SEARCH APP (FULL-STACK)

- A full stack application which allows users to search top goal scorers for this season's Premier League. ([GitHub link](#), [Live Project](#))

PAST WORK EXPERIENCE

BIDVEST BANK, Junior Treasury Analyst (01/2023) - (06/2024)

Worked with a team of financial market traders where my daily duties included: market commentary, contributing to the yield enhancement strategy, nostro account management, managing the SAMOS account and invoicing.

EDUCATION AND SELF STUDY

HYPERIONDEV, Full Stack Web Development Bootcamp (11/2024) - (02/2025)

UNIVERSITY OF FORT HARE, BCom Honours Economics (Financial Markets) (2022)

ACHEIVEMENTS

- Developed a full stack multi page website Marome Investments and optimized it's visibility using effective SEO techniques.
- Created a portfolio website showcasing completed projects using HTML, CSS, and React and full stack applications.
- Implemented version control using Git for project tracking and collaboration.

- ACI Dealing Certificate – (06/09/2024) – Foreign Exchange and Financial Markets Certificate.
- RE5 – Regulatory Certificate for Representatives.
