PROJECTS

PERSONAL PORTFOLIO WEBPAGE

- This is a personal portfolio website showcasing my skills and projects as a web developer. ([GitHub Link](#), [Project link](#))

API MEAL SEARCH APPLICATION (HTML and JAVASCRIPT)

- Developed a responsive meal search application using HTML and JavaScript.
- The application starts off with the user entering a random ingredient. The app will then give the user a random meal from the API which has the ingredient. The user can then decide to accept the order or skip it.
- The application utilises the **prompt( )** and **alert( )** functions for user interactions, then fetches API for consuming the Meal DB API, and **sessionStorage** to store order details. ([GitHub link](#), [Project link](#))

ONLINE STORE WEBPAGE (REACT)

- Developed a dynamic online store frontend using React, enabling seamless product browsing and efficient cart management. Implemented user-friendly features to enhance

navigation, product selection, and real-time cart updates. Focused on delivering a responsive and intuitive interface to improve overall user experience. ([GitHub link,](#) [Project link](#))

WEST LONDON GIANTS [Frontend (React)]

- A React-based Chelsea fan app featuring a dynamic home page, player pages, and club history/trophies navigation. ([GitHub link](#), [Project Link](#))

ITUNES SEARCH APPLICATION (FULL-STACK)

- Developed a full stack iTunes media search app using a search API which interfaces with React and Express. The application allows users to search for content within the iTunes Store and Apple Books Store and save a list of their favourites. ([GitHub link](#))

PREMIER LEAGUE TOP SCORERS SEARCH APP (FULL-STACK)

- A full stack application which allows users to search top goal scorers for this season's Premier League. ([Github link](#), [Project Link](#))
